UNIVERSITY OF APPLIED SCIENCES

SafeSea

- **Intelligent maritime safety solutions, digital test platform and service pilots together with companies**

- SafeSea workshops and seminars bring focus companies together to help develop future autonomous and remote operated vessels
- Facilitate to increase RDI activities and funding, co-development of products and services as well as support for internalization
- Utilizing test platforms and environments, such as eM/S Salama, Novia's simulators and ARPA data platform

SafeSea
technical topics

- **Intelligent maritime safety solutions, digital test platform and service pilots together with companies**

- Develop ARPA data platform towards data spaces, e.g. Gaia-X, with cyber security in mind
- Generate synthetic data AI algorithms and new synthetic data datasets
- Offer possibilities for companies and researchers to test AI and Machine Learning based products in physical and virtual environment
- Utilizing maritime knowledge to reliably verify and validate developed digital services and pilots

Thank you!
